

ROSÉ

CALIFORNIA

Description

Our approach with Rosé is uncompromising; it's whole-cluster pressed into neutral French oak barrels. Expect intense and evocative aroma in this release. Picture sitting under the blossoming cherry trees on the National Mall, peeling oranges while your companion tears into some good fresh bread. That segues into flavors of white raspberry, just ripe apricots and rainier cherries. You'll find a moment of cushion before this gains pitch into a zesty, mineral driven finish.
