2023 DRY RIESLING KICK ON RANCH

This 2023 bottling might be the most powerful dry Riesling we've ever made. It glides over the palate with mouthcoating texture that has nothing to do with residual sugar (this Riesling is bone-dry); it's just packed with substance. It shifts quickly into high-gear acidity, then crisp flavors of citrus and tropical fruits laced with leesy umami, salty minerality, and fine tea-like grit.
